

Leaffield Environmental design and manufacture premium tables, recycling and litter bins in the UK, using rotational moulding, a fast and efficient method which produces consistent high quality, hard-wearing products.

NOW AVAILABLE THE CATERER

The NEW Caterer is a table moulded serving top designed in partnership with Chartwells for schools that do not have enough space to store large bespoke serving tables.

Easily placed on top of a standard folding table* ready to fit the prepared gastronomes** and then lifted off and stacked away when not in use.

* Designed for use with standard 1830 x 760 mm GoPak table
6 x ½ gastronomes (GN1/2:325x265 mm Bourgreat & Vogue)

** Alternative gastronome configurations coming soon
