

User guidelines

Centrum Forecourt

Leaffield litter products

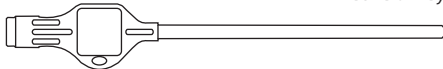

Cleaning Products should be rinsed with clean water and then washed with a mild detergent solution using a bristle brush or sponge. Care should be taken not to apply undue pressure that may damage labels. Flush clean with water after washing. Non heated pressure washer can be used at no closer than 400mm away from the unit. The Pressure should be no more than 100 Bar.

Tools Key (included)

Leaffield Key

Quality Standards All Leaffield Environmental products are certificated to BS EN ISO 14001:2004 and BS EN ISO 19001:2008, BS OHSAS 18001:2007

PPE Always wear appropriate PPE equipment and follow safety guidelines.

Door opening

1 Insert key into key hole on front of bin to release the lock plunger (if applicable). Lift the door using the handle located at the front of the door.

2 Open the door to gain access to the sack retention frame.

3 Pull the sack retention frame towards you.

Please Note: Leaffield does not operate a refuse collection system. This must be organised by the customer.

Fitting a bag

To fit a new plastic bin liner, pass the bag up through the top of the sack frame. Stretching the bag down over the top of the sack frame bar. Lower the sack retention bars back into position which will grip the bag into place.

Push the sack frame back into position.

Towel and glove maintenance

With the door open remove all packaging from the towel packs and slide new pack into position as shown above.

Before replacing the new towel packs remove the perforated section as shown above.

Slot glove pack into position.

Replacing signage

From inside the door unscrew the plastic thumb screw at the bottom of the signage panel support. Lift the signage panel support up.

If the signage is small enough tuck the corners into each corner of the signage panel. Close and retighten thumb screw.
