

# User guidelines

## Envirobank 140

**Cleaning** Products should be flushed with clean water and then washed with a mild detergent solution using a bristle brush or sponge. Care should be taken not to apply undue pressure that may damage labels. Flush clean with water after washing.

**Quality Standards** All Leaffield Environmental products are certificated to BS EN ISO

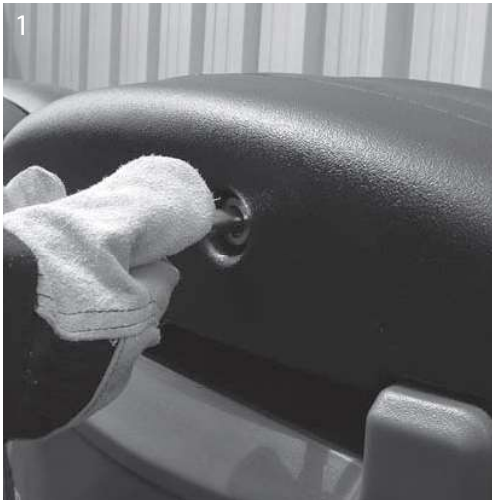

**Tools Key:**

**PPE** Always wear appropriate PPE equipment and follow safety guidelines.

### Unlocking and opening door

1 Turn key clockwise until it stops, hold key in stop position

2 With key turned grip under front panel and lift bin door upward until it stops. Remove key

3 Pivot the door open. Once opened the door will rest in lifted position on the moulded support

Envirobank can be supplied with either a single wheeled liner a split wheeled liner or sack retention

**NOTE:**

Leaffield does not operate a refuse collection system. This must be arranged by the customer.

## Removing liner

4 Grip liner by handle and tilt away from bin pivoting on liner wheels

5 Remove the liner from bin body supporting weight on wheels

6 Roll liner free from bin and empty

## Replacing liner and locking door

7 Replace liner rolling over lip on base, ensuring handle is facing outwards

8 Ensure liner is flat and stable on bin base before pushing door closed

9 When at closed position door will drop down and engage lock automatically

## Sack retention variant

1 Feed sack through retention frame and pull down so that the open end meets the frame

2 Stretch the sack over the frame ensuring the sack is taut and overlapping on all edges

3 To release sack from retention frame. Drop down and gather liner, remove liner from bin body and dispose.
