

User guidelines

Leaffield Recycling bins

Envirocup bin

Cleaning Products should be flushed with clean water and then washed with a mild detergent solution using a bristle brush or sponge. Care should be taken not to apply undue pressure that may damage labels. Flush clean with water after washing.

Quality Standards All Leaffield Environmental products are certificated to BS EN ISO

Tools None

PPE Always wear appropriate PPE equipment and follow safety guidelines.

Removing hood and water jug

Grip hood and lift upwards and clear bin body

Grip central excess liquid resevoir by top handle and lift from central core

Remove excess liquid resevoir and empty contents

NOTE:
Leaffield does not operate a refuse collection system. This must be arranged by the customer.

Removing cup holder and liner

Grip cup holder on edge and lift up disengaging clips from bin edge

Lift cup holder upward clearing bin body. Cups will remain in the sack

Gather liner and remove

Replacing liner and cup holder

Stretch liner over the bin body and push down into the bin

Replace cup holder orientate so that metal clips align with the front and back of the bin

Drop cup holder down to its lowest level so that the front and rear clips hook over the bin edge

Replacing jug and hood

Replace excess liquid reservoir into central core

Replace hood so that label faces the front of the bin and lines up with any logos or personalisation

Push down ensuring the hood is seated at its lowest position
