

User guide

Meridan

LEAFIELD recycling products

Cleaning Products should be rinsed with clean water and then washed with a mild detergent solution using a bristle brush or sponge. Care should be taken not to apply undue pressure that may damage labels. Flush clean with water after washing. Non heated pressure washer can be used at no closer the 400mm away from the unit. The Pressure should be no more than 100 Bar.

Tools No tools required

Quality Standards All Leaffield Environmental products are certificated to BS EN ISO

PPE Always wear appropriate PPE equipment and follow safety guidelines.

Inserting sack

1

Locate the sack around the rear of the body, slide the edges of the sack around the sack retention posts in the moulding.

2

By lifting up the sack frame up and keeping the sack taut. Wrap the sack around the bar. Tuck the edges of the bag inside the bin body.

3

Allow the sack frame to return back into position. Repeat steps 1,2, and three for all sack requiring replacement.

Replace Lid

7

Locate the rear peg of the lid under the lip at the back of the body

8

Place the lid back in position ensuring the front pegs locate in the body
