

Labels and Posters

Whatever your requirements we have the resource and determination to meet them

All litter and recycling bins have clear, concise, durable labelling that, where relevant, meets the WRAP (Waste Resource Action Programme) requirements in terms of colouring and symbols.

We also offer custom labelling & signage for non-standard recycling and colours to meet corporate requirements.

Many bins also offer space for branding, promotion or sponsorship labelling... Personalisation panels. With certain models, these may also be enhanced with framed polycarbonate poster covers.
