Personalisation

Colours

We offer litter bins, recycling bins and amenity units in a wide range of standard colours and now have the facility to match brand colours precisely, producing bins that look smart, look corporate and reinforce your brand image (subject to minimum order quantities).

Whatever colour you happen to have settled on... The Leaffield boast is that we can match it and in some small way, help enhance your brand identity.

In addition we offer a full personalisation service, from adding your organisation's logo or crest, to supplying personalised user graphics and posters.
